March 25, 1987

Dear Bill:

Please accept my warmest congratulations as you celebrate your 30th anniversary as a member of the Congress. Knowing what it took to win a seat in the Senate three times, I have to say I'm deeply impressed by a fellow who's won 16 consecutive elections to the House.

You've built an enviable reputation as a man of courage and principle, one who has never been afraid to buck the currents of political fashion for a cause you believed in. It's that honesty, along with your courtesy and graciousness, that has earned you the esteem of your colleagues and the loyal support of your constituents. Working with men like you was the finest privilege of my own service as a member of the world's greatest legislative body.

You have my best wishes for many more years of success representing the people of the 18th District of Michigan.

Warm regards.

Sincerely,

Howard H. Baker, Jr.
Chief of Staff to the President

April 3, 1987

Dear Robert:

Thank you for your letter expressing grave concern over the possible initiation of an emission control program as part of our preparation for the upcoming Canadian-American summit. I am pleased to report that we have not seriously considered such a move.

The President has approved seeking the full \$2.5 billion in funding over a five-year period, as recommended by the Special Envoys on Acid Rain, but these funds are to be spent on the continuation of demonstration projects of innovative control technologies. The Secretary of Energy has been directed to establish an advisory panel, which will include participation by State governments and by Canada, to advise him on funding and selection of these types of projects, using the criteria recommended by the Special Envoys as fully as practicable.

The President has also asked the Vice President to have the Presidential Task Force on Regulatory Relief review Federal, State and local economic and regulatory programs. The results of this review will be reported in six months. All these actions are consistent with the Special Envoys' report, and we believe represent positive steps to help us better understand and address this elusive problem.

I appreciate your kind regards.

With best wishes,

Sincerely,

Howard H. Baker, Jr.
Chief of Staff to the President
